

ED Airway Cart – Stock List

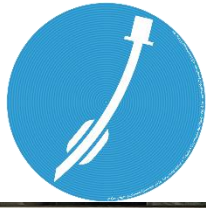

- For HCA or resus RN restocking after each intubation
- Each drawer labelled with approach
- Each individual compartment labelled with content, with storeroom location code
- Stocklist hosted on EMed under new 'Equipment' section
- Each cart will have QR code sticker with link to designated EMed stock page (below). Laminated A4 page attached to each cart with stock list
- Each cart is organised from top to bottom in sequence of equipment being needed
- We have a 'lean' stock model for these carts, enough stock for 3-4 standard adult intubations – overstocking is unsafe and risks airway failure

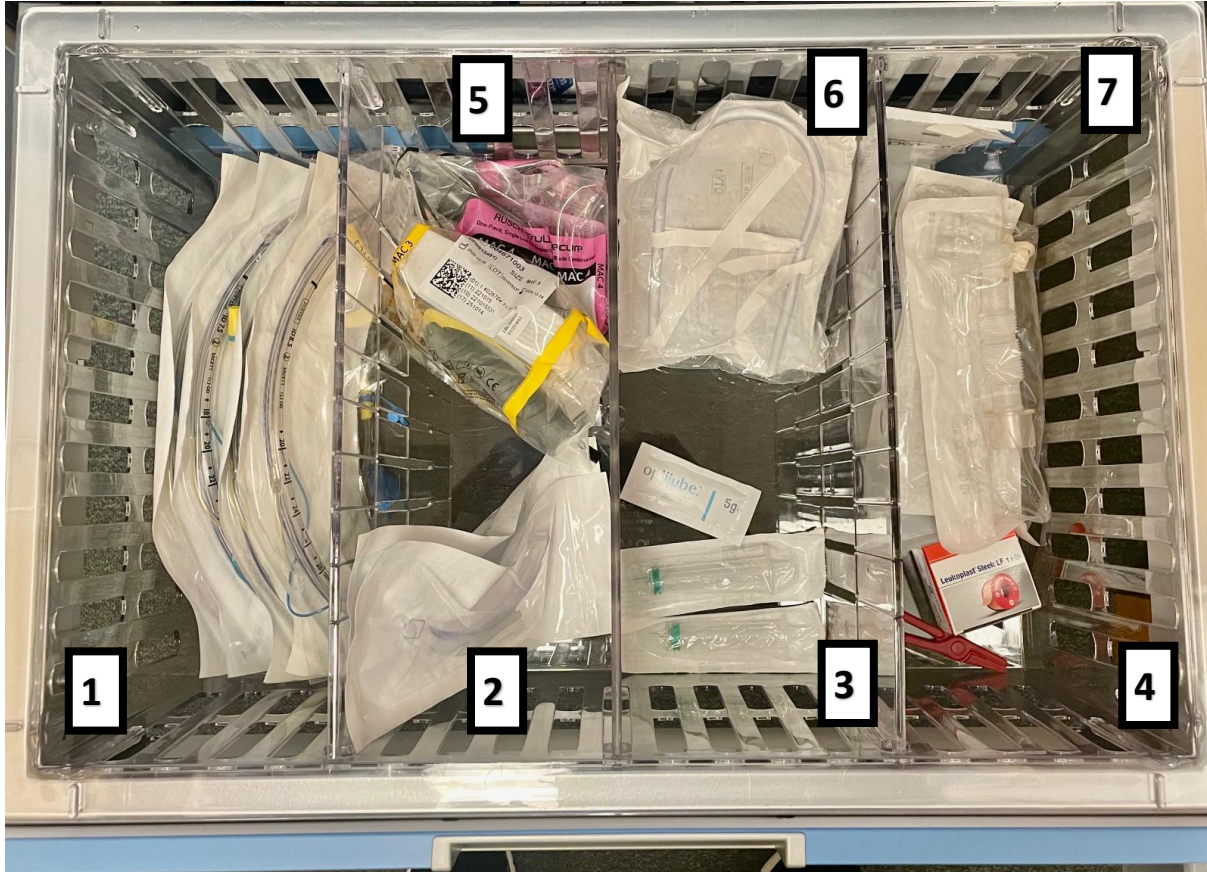

Drawer 1 – Mask Oxygenation

Key	Stock item	No. of items	Store code
1	(Adult) Mapleson C-circuit	4	W 2
2	Anaesthetic masks: 6,5,4,3	4 (<u>one</u> of each size)	V 5,6,7,8
